

WEBINAR ON SANSKRIT KI UPADEYATA

An online session was organized for first year students studying Sanskrit by the Language and communication skills committee of the college On 26/11/2021. Dr. Dipali S. Bhandari introduced the resource person for the day. Dr. Vasundhara Bhardwaj, Retd Principal, College Cadre of the Government of Himachal Pradesh, talked to the students about the importance of studying Sanskrit and how Sanskrit provides many career options to students. She told the students that Sanskrit is one of the most scientific languages and is increasingly being employed for coding purposes. She also informed the audience about the vast knowledge originally contained in the Sanskrit texts which has been credited to people of other nations due to our ignorance of the treasure trove that the ancient texts contain through various examples.

The one hour engaging session was attended by 87 students who have opted for Sanskrit in First year of graduation. Dr. Veena Rathore, Principal, SGGSI Govt. Degree College, Paonta Sahib; addressed the students and said that many a times students just study a subject without understanding its true potential. Especially in case of Sanskrit, it will be easier to motivate the students once they learn about the prospective careers that this field provides. In the end, Dr. Usha Joshi thanked the Chair and the Resource person.
