Dated:-18-08-2021

**AVOID USE OF PLASTIC BAGS**

This is to inform all the students and staff members that single-use plastic bags and polythene bags are to be avoided in our daily use. Polythene bags with thickness less than 50 microns are banned in various countries since it is harmful to our environment and our animals. Few of the reasons, why we all should avoid use of plastics, are as under-

- Plastic bags are not easy to recycle
- Plastic bags are expensive and hard to remove from environment
- Plastic bags are harmful to human health
- Plastic bags are harmful to wildlife and marine life
- Plastic bags are toxic
- Plastic bags do not degrade
- A lot of energy is used in producing these bags
- Those bags are made from non-renewable sources and on this account, contribute to climate change
- Plastic bags pollute not only our water but also our land

It is therefore appealed to all stakeholders, students and staff members to make a resolution to avoid using plastic bags and polythene bags. Instead, we will carry our own bags which are acceptable, environment friendly like cloth, weave, knit, handicraft etc.
