

# HUMAN RESOURCES AND LOGISTIC MANAGEMENT

PUBA204A

# HUMAN RESOURCES MANAGEMENT

- Human resource management is the strategic approach to the effective and efficient management of people in a company or organization such that they help their business gain a competitive advantage. It is designed to maximize employee performance in service of an employer's strategic objectives

# HUMAN RESOURCES PLANNING

- Human resource planning (HRP) is the continuous process of systematic planning ahead to achieve optimum use of an organization's most valuable asset—quality employees. Human resources planning ensures the best fit between employees and jobs while avoiding manpower shortages or surpluses.

## LOGISTICS

- Logistics involves things like transportation, inventory, packaging, supplies and sometimes, social security and warehousing.

# LOGISTICS MANAGEMENT

- Logistics management is the governance of supply chain management functions that helps organizations plan, manage and implement processes to move and store goods.

# INVENTORY MANAGEMENT

- Inventory management helps companies identify which and how much stock to order at what time. It tracks inventory from purchase to the sale of goods. The practice identifies and responds to trends to ensure there's always enough stock to fulfill customer orders and proper warning of a shortage.
